power banks

CAT. NO. 975 Power Bank 2600

Capacity: 2600 mAh

TECHNICAL DATA

- Battery - Lithium-Ion
- Rated Capacity: 2600 mAh
- Output: 5V-800 mAh
- Input: 5V-1000 mAh
- Number of Charge Cycles - Minimum 500 charges.

INSTRUCTIONS FOR USE

- **To charge the Power Bank** - Connect the USB cable to a power supply and insert the Micro-USB plug into the Power Bank socket. When charging, a red LED light will turn on. When the Power Bank is fully charged a green light is turned on.
- **To charge another appliance using Power Bank** - Insert USB cable into the output socket located on the end of the Power Bank. Plug the Micro-USB end of the cable into the appliance you want to charge. A blue LED light will turn on whilst the appliance is being charged.

CAT. NO. 976 Power Bank 5200

Capacity: 5200 mAh

TECHNICAL DATA

- Battery - Lithium-Ion
- Rated Capacity: 5200 mAh
- Output: 5V-800 mAh
- Input: 5V-1000 mAh
- Number of Charge Cycles - Minimum 500 charges.

INSTRUCTIONS FOR USE

- **To charge the Power Bank** - Connect the USB cable to a power supply and insert the Micro-USB end into the Power Bank socket. When charging, the blue LEDs will light one-by-one as the power level increases. When the Power Bank is fully charged all LEDs will be on.
- **To charge another appliance using Power Bank** - Press the on/off button located on the back of the Power Bank to check power levels; all LEDs on = full power. Insert the USB cable into the output socket located on the top of the Power Bank. Plug the Micro-USB end of the cable into the appliance you want to charge. The Blue LEDs will indicate power levels as the appliance is being charged.

power banks

CAT. NO. 977 Power Bank 7800

Capacity: 7800 mAh

TECHNICAL DATA

- Battery - Lithium-Ion
- Rated Capacity: 7800 mAh
- Output: 5V-800 mAh
- Input: 5V-1000 mAh
- Number of Charge Cycles - Minimum 500 charges.

Dual USB power outputs - charge 2 devices at the same time.

INSTRUCTIONS FOR USE

- **To charge the Power Bank** - Connect the USB cable to a power supply and insert the Micro-USB end into the Power Bank socket. When charging, the blue LEDs will light one-by-one as the power level increases. When the Power Bank is fully charged all LEDs will be on.
- **To charge another appliance using Power Bank** - Press the on/off button located on the back of the Power Bank to check power levels; all LEDs on = full power. Insert a USB cable into one of the output sockets located on the top of the Power Bank. Plug the Micro-USB end of the cable into the appliance you want to charge. The Blue LEDs will indicate power levels as the appliance is being charged. Two appliances can be charged at the same time if required.

CAT. NO. 978 Power Bank 10400

Capacity: 10400 mAh

TECHNICAL DATA

- Battery - Lithium-Ion
- Rated Capacity: 10400 mAh
- Output: 5V-800 mAh
- Input: 5V-1000 mAh
- Number of Charge Cycles - Minimum 500 charges.

Dual USB power outputs - charge 2 devices at the same time.

INSTRUCTIONS FOR USE

- **To charge the Power Bank** - Connect the USB cable to a power supply and insert the Micro-USB end into the Power Bank socket. When charging, the blue LEDs will light one-by-one as the power level increases. When the Power Bank is fully charged all LEDs will be on.
- **To charge another appliance using Power Bank** - Press the on/off button located on the back of the Power Bank to check power levels; all LEDs on = full power. SPECIFICATIONS 240-B

- AC Power Rating: 6.3 A max. (660W max. at 110V/1380W at 220V).
- Built-in 6.3 A replaceable fuse.
- Shutters prevent EURO 7/7 insertion and is child safe.
- Patent protected.

SPECIFICATIONS 240-C

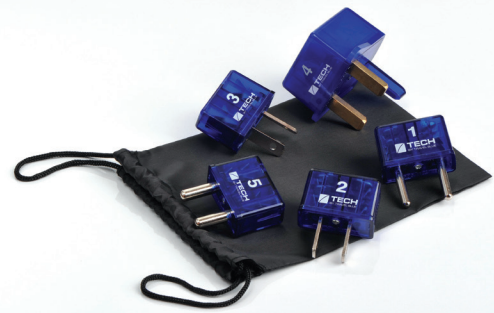

- AC Power Rating: 6.3A max. (660W max. at 110V/1380W at 220V).
- Built-in 6.3 A replaceable fuse.
- Shutter ALLOWS insertion of EURO 7/7 for maximised global usage in a safe fused and protected environment.
- Patent protected.

CAT. NO. 177

Worldwide Travel Adaptor Set

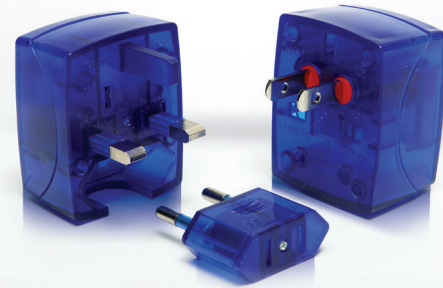

- This Travel Adaptor Set includes the most popular travel plugs - to be used in most countries around the world.
- The set of 5 travel adaptors comes with high quality travel pouch with drawstring.
- **Note: this travel adaptor set does not convert voltage.**
- A full list of over 150 countries is enclosed inside the box.
- AC Power Rating: 3 A max. (330W at 110V/660W at 220V).
- For use with Class II Non-earthed appliances only .

CAT. NO. 178

Worldwide Travel Adaptor Set

- This small, neat and compact Travel Adaptor is an All-In-One set.
- 3 Worldwide plug types included in set.
- Suitable for use in most countries around the world - over 150 countries.
- **Note: this travel adaptor does not convert voltage.**
- AC Power Rating: 3 A max. (330W at 110V/660W at 220V).
- For use with Class II Non-earthed appliances only .

CAT. NO. 179

All-In-One Worldwide Travel Adaptor

- This All-In-One Travel Adaptor is suitable for use in most countries around the world - over 150 countries.
- The travel adaptor has a built-in surge protector and safety shutters to protect the user from coming in contact with live parts.
- The Travel Adaptor is built with special safety sliders to ensure that only one type of plugs can be used at any time.
- To use - simply move the safety slider to the required position and release the relevant pins to suit the country you visit.
- **Note: this travel adaptor does not convert voltage.**
- AC Power Rating: 5 A max. (550W at 110V/1100W at 220V).
- For use with Class II Non-earthed appliances only .

CAT. NO. 196

Worldwide Adaptor

- A set of adaptors suitable for use in many countries around the world such as: **USA, Japan, UK, Australia, New Zealand.** Full list of all countries is inside.
- **Note: this adaptor does not convert voltage.**
- AC Power Rating: 2.5A max. (275W at 110V/550W at 220V).
- For use with Class II, non-earthed appliances marked with .

CAT. NO. 181

World-Wide Multi-Set Travel Adapter

- This Travel Adaptor Set includes the most popular travel plugs from around the world - to be used in most countries around the world.
- The set of 5 travel adaptors comes with high quality travel pouch with drawstring.
- **Note: this travel adaptor set does not convert voltage.**
- A full list of over 150 countries is enclosed inside the box.
- AC Power Rating: 3 A max. (330W at 110V/660W at 220V).
- For use with Class II, non-earthed appliances marked with .
- Not for use in Denmark.
