## **FREE LOST & FOUND SERVICE**

[www.free-lost-found.com](http://www.free-lost-found.com)

Every year tens of millions of travellers lose their luggage, passports and other valuable personal items. In 2008, for example, 32.8 million pieces of luggage were lost. It is estimated that nearly 4 million passports alone are lost every year. Many of these personal items, although found, are never reunited with their owners as there are no personal details on the items found. Loss of personal belongings is one of the key issues worrying the consumer on the move.

Travel Blue offers a unique way to re-unite lost items with their owners. Travel Blue products carry a unique and individual I.D. number together with clear instructions on how to bring the Finder and the owners quickly and easily together. **This service is completely free-of-charge!**

**Travel Blue together with Free-Lost-Found offer the consumer a REAL ADDED VALUE!**

## How does it work

Bought a Travel Blue laptop bag

Registered ID Code online

Left the bag,  
can't remember where

The bag was found

Finder sent me an email through  
[www.free-lost-found.com](http://www.free-lost-found.com)

Got a message from  
[www.free-lost-found.com](http://www.free-lost-found.com)  
My bag was found !!!

[www.free-lost-found.com](http://www.free-lost-found.com)

## Why do we do this?

Part of our Brand Philosophy has always been our Environmental & Social Responsibility. This is the reason why at least 70% of our packaging are made of recycled materials.

Losing personal property is one of the most stressful worries while on the move. We believe it is also our responsibility to find solutions to this problem.

Adding the free-lost-found on our products, without any additional cost, is our contribution to reducing this problem, and an important part of our Brand Philosophy.

security

# security money belts
